apprenticeship  
offer...

Transport and logistics apprenticeships provide businesses and employees with invaluable opportunities to build a solid base of skills and knowledge in this dynamic sector.

## Tailored Apprenticeships Programmes

We deliver high-quality apprenticeships that are tailored to the transport and logistics sector, equipping individuals with the skills and experience to excel in their roles. By focusing on practical training, apprentices gain the hands-on experience needed to thrive in this fast-paced industry.

## Career Development and Experience

Our programmes combine expert mentorship with real-world experience, allowing apprentices to develop professionally and personally. We provide support at every stage, helping individuals build confidence and apply their learning directly in their roles for career growth.

## Workforce Development and Impact

Our apprenticeships develop a highly skilled workforce, enhancing service delivery and improving staff retention. By fostering both personal and professional growth, our programmes drive long-term organisational success and business expansion. Additionally, they create a pipeline of talented individuals, equipping them with the expertise needed to step into key roles and fuel continuous innovation.

” With the support from Learning Curve Group our strategic approach ensures a continuous influx of skilled professionals who are poised to take our business to new heights.

# » Our apprenticeship offer

Our transport and logistics apprenticeships empower participants with essential skills, benefiting both businesses and employees in this fast-paced industry.

## Large Goods Vehicle (LGV) Driver C + E Level 2

The specialised training programme teaches vital skills for load and vehicle integrity, emphasising proper load restraint and road performance. It prioritises fuel-efficient driving and compliance with traffic laws for exceptional service. Participants graduate prepared, gaining a category C + E licence as part of the apprenticeship.

## Supply Chain Warehouse Operative Level 2

Our training programme prepares individuals for warehouse roles by teaching skills in receiving, inspecting, and storing goods efficiently. Participants will learn stock-moving techniques, order picking, packing, and loading for dispatch. Emphasis is placed on maintaining accurate records, documentation, and ensuring warehouse cleanliness.

## Transport Warehouse Operations Supervisor Level 3

Customised for logistics and warehousing professionals, this programme offers a free Transport Manager CPC qualification, tailored for those aiming to excel in transport roles. Participants gain expertise in overseeing supply chain operations, ensuring compliance, and applying best practices for efficient management.

## Urban Driver Level 2

Customised for professionals in logistics and warehousing, this programme includes a category C licence as part of the apprenticeship. It's designed for individuals across diverse sectors relying on road transportation for efficient goods delivery. Participants manage time-sensitive responsibilities to ensure seamless goods flow within specific regions.

## Team Leader Level 3

Our comprehensive training programme is meticulously designed to cater specifically to the needs of first-line management professionals. It provides a robust framework for equipping participants effectively to navigate the multifaceted responsibilities inherent in their roles, such as overseeing operations, managing projects, and leading teams.

## Operations Manager Level 5

Geared towards professionals in management roles, this programme addresses a range of responsibilities across organisations of different sizes and sectors. Participants typically hold managerial positions, overseeing teams and projects to achieve operational and departmental objectives while effectively supporting and implementing strategic initiatives.

## Mastering Data in Logistics Level 3

This comprehensive training initiative focuses on enhancing visibility within the supply chain, an essential component for professionals working in the logistics sector. Through the programme, participants develop advanced skills in leveraging data effectively to make informed decisions and anticipate potential disruptions. They gain expertise in applying real-time tracking technologies and sensor-generated data, while also addressing and overcoming the complexities associated with data collection, storage, and analytical processes.

## Apprenticeships for employers

At Learning Curve Group, we specialise in delivering successful apprenticeships. Whether you want to upskill your employees or bring in enthusiastic new starters, an apprenticeship can be the right option for your business's future.

### What do Apprenticeships include?

Each apprenticeship programme is structured around a specific 'Standard' corresponding to a particular occupation. These standards are robust, demanding, and typically involve at least one year of intensive training, culminating in an End-Point Assessment (EPA) to evaluate the apprentice's competency.

Furthermore, many of our logistics apprenticeships come with additional benefits. These may include relevant licenses or professional qualifications integrated seamlessly into the programme curriculum, all provided at no extra cost to the apprentice.

### Benefits to Apprenticeships

Apprenticeships offer mutual benefits for businesses and individuals. For businesses, they provide a cost-effective means to attract and retain talent, customise training, and develop a skilled workforce. Meanwhile, individuals gain hands-on experience, recognised qualifications, and opportunities for personal and professional growth.
