

Overcoming obstacles, including computer literacy challenges...

Hear from one of our incredible learners from Housing 21 who has experienced the journey firsthand.

My Apprenticeship Journey

“

Alex recently completed the End Point Assessment (EPA) for the Adult Care Worker Certificate Level 2, earning a merit. This milestone highlights the dedication and effort Alex put into the studies, despite challenges with computer literacy.

A key factor in Alex's success was the exceptional support from tutor Jasmine. She showed remarkable patience and understanding, developing alternative learning strategies like paper-based materials and recording verbal responses to assessment questions.

Jasmine's commitment extended beyond conventional tutoring. She made multiple visits to Alex's workplace, providing in-person support and alleviating the pressure of using unfamiliar technology. Her professionalism and adaptability were crucial to Alex's success.

Housing 21

Alex Philips

Level 2 Adult Care Worker Apprentice

Inspired by this experience, Alex recommended Jasmine to three colleagues pursuing their Level 2 certifications. They, too, benefited from her expert guidance. Jasmine's ability to cater to different learning styles and her dedication made her an invaluable resource.

Alex believes Jasmine's support was instrumental in achieving success, proving that with the right support, anyone can reach their educational goals. Jasmine's personalised approach, patience, and professionalism were key to Alex's achievement.

Alex is confident that Jasmine will continue to help many more students reach their potential. Jasmine is truly a credit to Learning Curve and exemplifies the impact of effective tutoring in adult education.
