

CACHE LEVEL 2

# **UNDERSTANDING ADVERSE CHILDHOOD EXPERIENCES**

# The Course

Adverse circumstances can have a negative impact on anyone's life, but children and young people are particularly vulnerable. They might face difficult circumstances such as the death or divorce of parents, domestic violence, or national and international disasters. These types of adverse childhood experiences can have an impact on their development and mental health, which may continue into adulthood and affect their life chances. This fully online adverse childhood experiences course will give you the skills needed to support children and young people affected by adverse experiences. You will gain insight into how to strengthen their resilience and empower them to overcome the challenges they face.
