Enhancing my analytical skills, confidence and ability to deliver...

Hear from one of our incredible learners from RNIB who has experienced the journey firsthand.

Harriet Bird, a Senior Research Officer at the Royal National Institute of Blind People (RNIB), has significantly advanced her professional capabilities through the Level 4 Data Analyst apprenticeship offered by Learning Curve Group (LCG). This apprenticeship has empowered Harriet to enhance her data analysis skills and deliver higher quality work.

The Level 4 Data Analyst apprenticeship has enabled Harriet to undertake more complex analytical tasks with increased confidence. She explains, "The Level 4 Data Analyst apprenticeship is enabling me to undertake more complex analytical tasks with greater confidence."

A key benefit of the apprenticeship for Harriet has been the opportunity to apply her learning to real-world scenarios. This practical application has solidified her understanding of data analysis principles and improved the quality of her work. Harriet notes, "It is enhancing my skills and knowledge of data analysis because I get the opportunity to apply theoretical knowledge and resources to my everyday work."

With the advanced skills gained from the apprenticeship, Harriet has unlocked insights from data that she previously could not access. This capability has empowered her to contribute more significantly to her role and organization. She acknowledges, "My work is of greater quality and the course is empowering me to unlock insights that I would not have been able to before."

The mentorship from experienced professionals at LCG has been crucial in Harriet's development. Their support has helped her navigate the complexities of data analysis with confidence.
