

Significantly enhancing my technical and professional skills...

My Apprenticeship Journey

Hear from one of our incredible learners from RNIB who has experienced the journey firsthand.

“

John Slade, a Senior Research Officer at the Royal National Institute of Blind People (RNIB), has experienced significant professional growth through the Data Apprenticeship program. This case study highlights the positive impact of the apprenticeship on both John and his team, emphasizing the benefits of technical and professional development, peer support, and increased collaboration within the organization.

The Data Apprenticeship has fostered a strong sense of community among the apprentices at RNIB. John has particularly valued this aspect, noting the camaraderie and peer support that have developed. He explains, “The Data Apprenticeship has been a great experience so far. I’ve really valued the community spirit it has created amongst the apprentices within RNIB and the peer support we’ve provided each other.”

Level 4 Data Analyst Apprentice

The apprenticeship content has been highly relevant and beneficial to John’s role. The combination of technical and professional development has enhanced his skills and knowledge, directly impacting his job performance. John remarks, “I’ve found the content, both in terms of technical and professional development, to all be relevant and useful in my job.”

The enthusiasm generated by the apprenticeship has encouraged team members to explore new development opportunities and innovate within their roles. John has seen a noticeable increase in their eagerness to learn and try new things. He observes, “I’ve seen how they’ve all been enthused by the apprenticeship, taking advantage of the development opportunities to try new things.”
